TechnipFMC

Investor Relations Overview

March 2023

Disclaimer
Forward-looking statements

This communication contains “forward-looking statements” as defined in Section 27A of the United States Securities Act of 1933, as amended, and Section 21E of the United States Securities Exchange Act of 1934, as amended. Forward-looking statements usually relate to future events and anticipated revenues, earnings, cash flows, or other aspects of our operations or operating results. Forward-looking statements are often identified by words such as “guidance,” “confident,” “believe,” “expect,” “anticipate,” “plan,” “intend,” “foresee,” “should,” “would,” “could,” “may,” “will,” “likely,” “predicated,” “estimate,” “outlook” and similar expressions, including the negative thereof. The absence of these words, however, does not mean that the statements are not forward-looking. These forward-looking statements are based on our current expectations, beliefs, and assumptions concerning future developments and business conditions and their potential effect on us. While management believes these forward-looking statements are reasonable as and when made, there can be no assurance that future developments affecting us will be those that we anticipate. All of our forward-looking statements involve risks and uncertainties (some of which are significant or beyond our control) and assumptions that could cause actual results to differ materially from our historical experience and our present expectations or projections, including unpredictable trends in the demand for and price of crude oil and natural gas; competition and unanticipated changes relating to competitive factors in our industry, including ongoing industry consolidation; the COVID-19 pandemic and any resurgence thereof; our inability to develop, implement and protect new technologies and services and intellectual property related thereto, including new technologies and services for our new energy ventures; the cumulative loss of major contracts, customers or alliances and unfavorable credit and commercial terms of certain contracts; disruptions in the political, regulatory, economic and social conditions of the countries in which we conduct business; the refusal of DTC to act as depository agency for our shares; the impact of our existing and future indebtedness and the restrictions on our operations by terms of the agreements governing our existing indebtedness; the risks caused by our acquisition and divestiture activities; additional costs or risks from increasing scrutiny and expectations regarding ESG matters; uncertainties related to our investments in new energy industries; the risks caused by fixed-price contracts; our failure to timely deliver our backlog; our reliance on subcontractors, suppliers and our joint venture partners; a failure or breach of our IT infrastructure or that of our subcontractors, suppliers or joint venture partners, including as a result of cyber-attacks; risks of pirates endangering our maritime employees and assets; any delays and cost overruns of new capital asset construction projects for vessels and manufacturing facilities; potential liabilities inherent in the industries in which we operate or have operated; our failure to comply with existing and future laws and regulations, including those related to environmental protection, climate change, health and safety, labor and employment, import/export controls, currency exchange, bribery and corruption, taxation, privacy, data protection and data security; the additional restrictions on dividend payouts or share repurchases as an English public limited company; uninsured claims and litigation against us; tax laws, treaties and regulations and any unfavorable findings by relevant tax authorities; potential departure of our key managers and employees; adverse seasonal and weather conditions and unfavorable currency exchange rates; risk in connection with our defined benefit pension plan commitments; our inability to obtain sufficient bonding capacity for certain contracts and other risks as discussed in Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 and our other reports subsequently filed with the Securities and Exchange Commission.

We caution you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any of our forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except to the extent required by law.

Contents

Section 1:
Operational and financial highlights

Q4 2022 Operational summary

Highlights

- Subsea backlog increased to $8.1 billion, +24% versus prior year; scheduling extends beyond 2025
- Surface Technologies revenue growth driven by international markets; Middle East more than 70% of growth
- Repurchased $50 million of shares; completed 25% of $400 million buyback authorization in just 5 months
- Updated intermediate-term financial outlook for 2025; Subsea adjusted EBITDA margin forecast to improve 650 bps to approximately 18% (versus 11.5% in 2022); Subsea adjusted EBITDA to approximate $1.4 billion

Takeaways

Expect to achieve record value of iEPCI™ awards in 2023

Adjusted EBITDA[1] guidance ~$870 million in 2023; increase of ~30% vs. 2022

[1]Assumes midpoint of guidance range for 2023; excludes impact of foreign exchange for both 2023 guidance and 2022

Subsea inbound orders of ~$25 billion through 2025 for our company

Q4 2022 Financial results

Sequential highlights

- Cash provided by operating activities of $566 million; free cash flow of $503 million
- Cash and cash equivalents increased to $1.1 billion; net debt reduced to $309 million
- Subsea revenue and adjusted EBITDA impacted by seasonal activity decline; prior quarter results also benefited from project completions realized in the period
- Surface Technologies revenue increase driven by international markets; adjusted EBITDA increased due to higher revenue as well as improved profitability in NAM, offset in part by the timing of costs associated with the ramp-up in Middle East volume

$1.8B
Inbound orders

$9.4B
Backlog

$121M*
Adjusted EBITDA

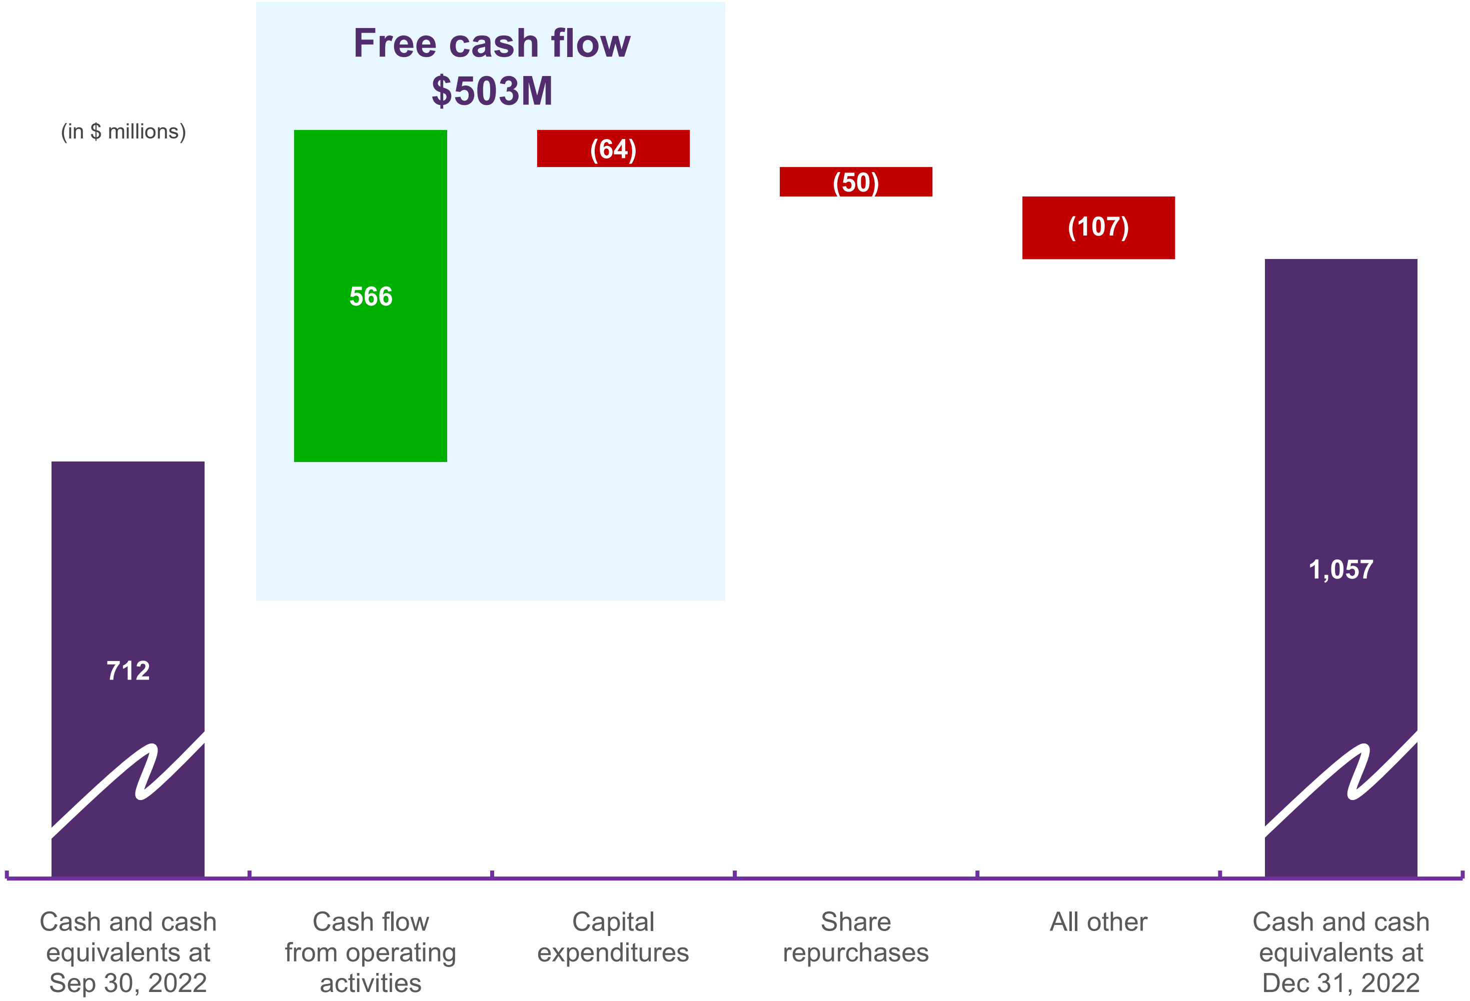
TechnipFMC

Q4 2022 Cash flow and net debt



Net Debt

(In millions, unaudited)

	December 31, 2022
Cash and cash equivalents	$ 1,057
Short-term debt and current portion of long-term debt	(367)
Long-term debt, less current portion	(999)
Net debt	**$ (309)**

2023 Full-year financial guidance[1] *As of February 23, 2023*

Subsea

- **Revenue** in a range of $5.9 – 6.3 billion
- **Adjusted EBITDA margin** in a range of 12.5 – 13.5%

Surface Technologies

- **Revenue** in a range of $1.3 – 1.45 billion
- **Adjusted EBITDA margin** in a range of 12 – 14%

TechnipFMC

- **Corporate expense, net** $100 – 110 million (includes depreciation and amortization of ~$5 million; excludes charges and credits)
- **Net interest expense** $100 – 110 million
- **Tax provision, as reported** $155 – 165 million
- **Capital expenditures** approximately $250 million
- **Free cash flow**[2] $225 – 375 million

[1]Our guidance measures of adjusted EBITDA, adjusted EBITDA margin, free cash flow, free cash flow conversion and adjusted corporate expense, net are non-GAAP financial measures. We are unable to provide a reconciliation to comparable GAAP financial measures on a forward-looking basis without unreasonable effort because of the unpredictability of the individual components of the most directly comparable GAAP financial measure and the variability of items excluded from each such measure. Such information may have a significant, and potentially unpredictable, impact on our future financial results.
[2]Free cash flow = cash flow from operations less capital expenditures

mechatronics

Utilizing mechatronics to transform subsea production system via robotic and mechanical systems integration

Overview of TechnipFMC segments

Subsea

Subsea products
- Trees, manifolds, control, templates, flowline systems, umbilicals and flexibles
- Subsea processing
- ROVs and manipulator systems

Subsea projects
- Field architecture, integrated design
- Engineering, procurement
- Installation using high-end fleet

Subsea services
- Drilling systems
- Asset management and production optimization

Revenue[1]	Adj. EBITDA[1]	Backlog[2]
$5,461mm	$628.9mm	$8,132mm

Surface Technologies

- Drilling, completion and production wellhead equipment, chokes, compact valves, manifolds and controls
- Treating iron, manifolds, and reciprocating pumps for stimulation and cementing
- Advanced separation and flow-treatment systems
- Flow metering products and systems
- Installation and maintenance services
- Frac-stack and manifold rental and operation services
- Flowback and well testing services

Revenue[1]	Adj. EBITDA[1]	Backlog[2]
$1,239mm	$139.6mm	$1,222mm

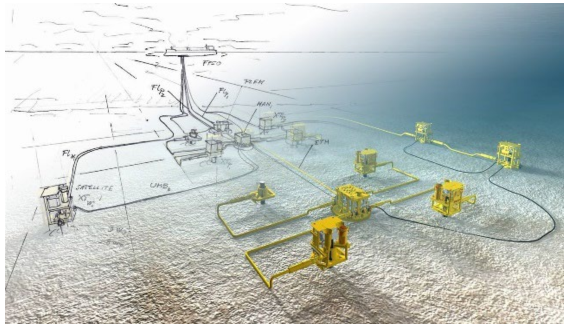
Subsea competitive strengths

Market leading positions built upon innovation and deep industry knowledge

Differentiated offering of integrated products, services: iFEED™, iEPCI™ and iLoF™

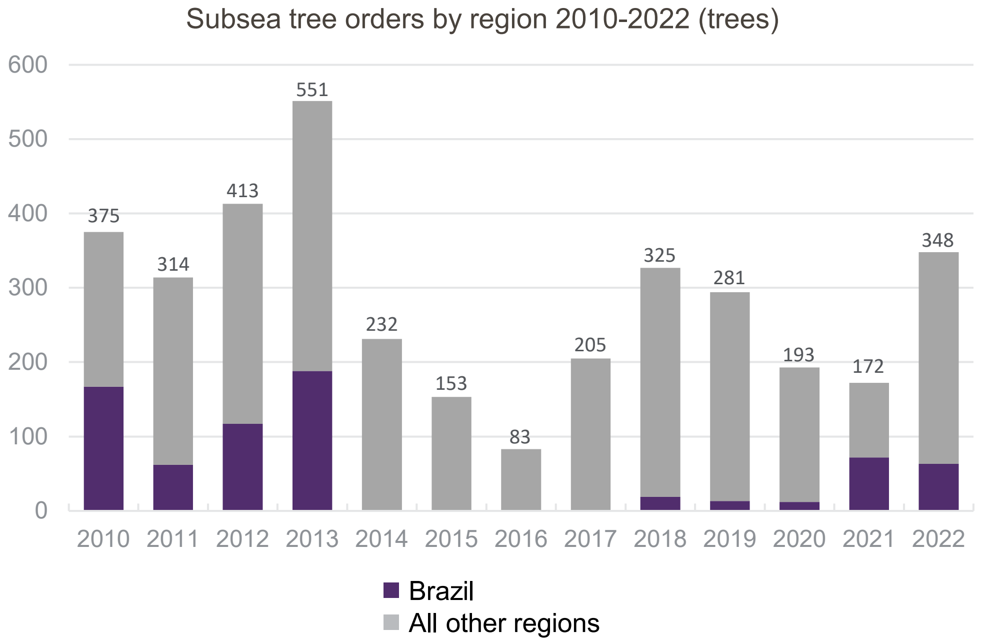
Technology advancements to drive greater efficiency and simplification



FEED Studies	Subsea Production Systems	Flexibles	Umbilicals	Installation	iEPCI™	Field Services

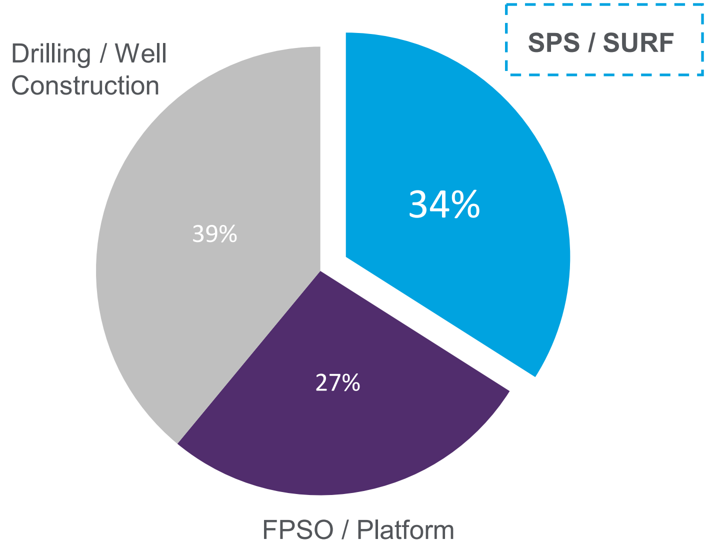
SPS / SURF – critical components of offshore development

Oil & gas industry has strong history of subsea tree orders



Source: Wood Mackenzie, March 2023

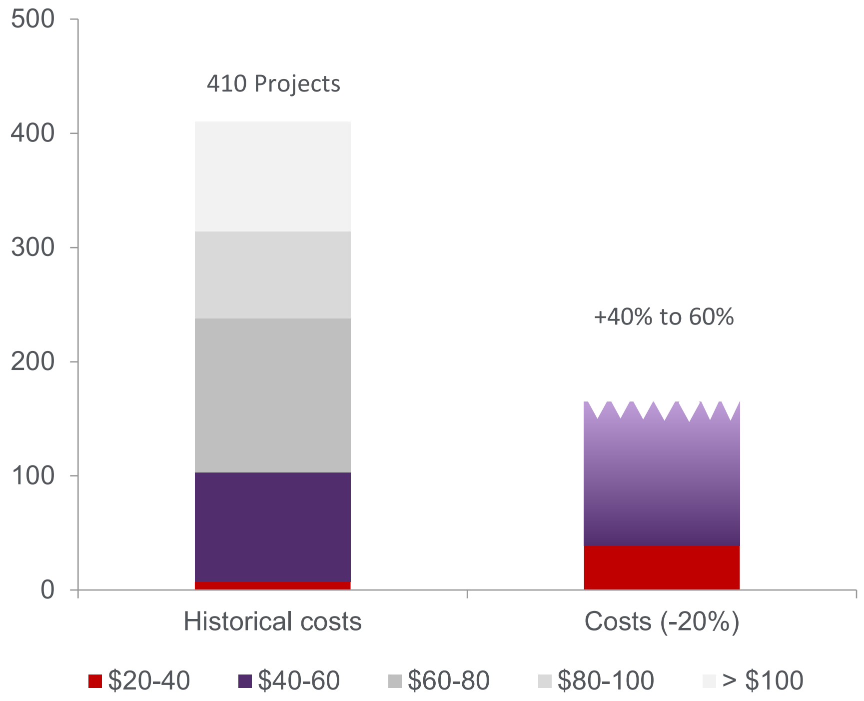
SPS / SURF is one of the largest components of project costs



Source: Morgan Stanley Research, TechnipFMC Internal Analysis

Improving project economics for deepwater projects

- More than 400 deepwater discoveries have yet to be developed
- Good progress on deepwater cost reductions with potential for additional savings
- Standardization, technology and strong project execution can deliver sustainable savings
- Integrated business model can reduce costs of SPS/SURF scope



Source: Wood Mackenzie, Rystad

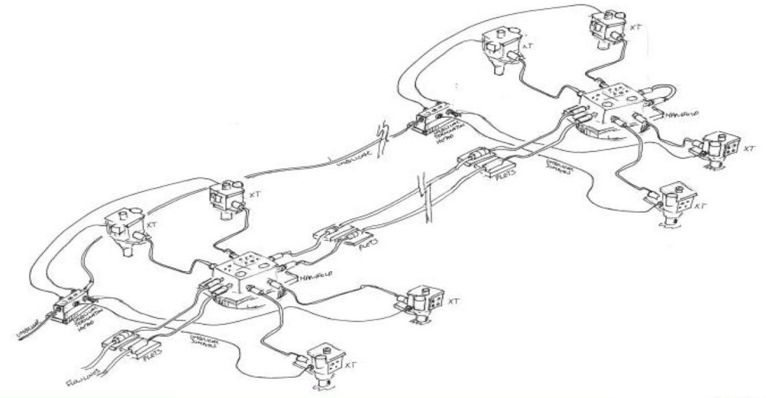
Subsea offers a full suite of capabilities

Conceptual Design & FEED[1]	Project Execution	Life-of-Field and Maintenance
Rationalized **subsea architecture** and design Optimized **technology** applications Improved **field performance**	*Engineering* · *Procurement* · *Equipment supply* · *Construction* · *Installation* **Joint SPS+SURF R&D** for improved technology application and combination Shortened **time to first oil** and **offshore installation** through **better planning** Reduced **project interfaces** and **contingencies** Strengthen **leverage** on **procurement**	Maximized **reliability** and **uptime** Increased **aftermarket capabilities** Improved **performance over the life of field** Unique **asset** and **technological** capabilities Best possible line-up to **undertake client challenges**
iFEED™ is an enabler	**iEPCI™ is a differentiator**	**iLoF™ is a growth engine**

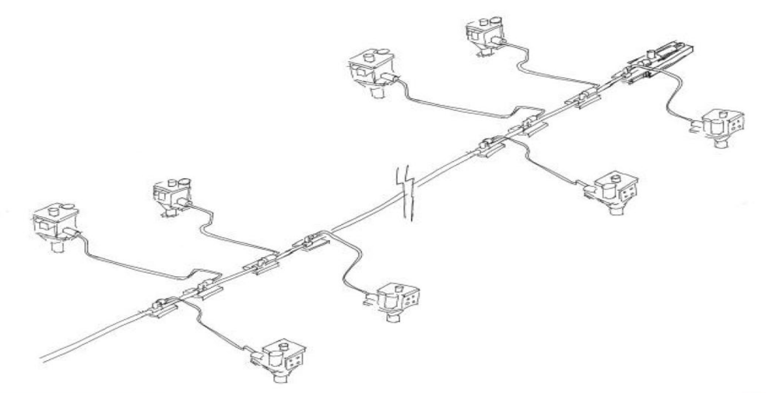
[1] Genesis Oil & Gas Consultants TechnipFMC

Integrated approach redefining subsea project economics

Traditional approach



Subsea 2.0™ an enabler to iEPCI™



Enhancements

- One global contractor
- Integrated procurement
- Optimized subsea architecture
- Fewer subsea production system interfaces
- Reduced flowline and riser lengths
- Less complexity through reduced part counts

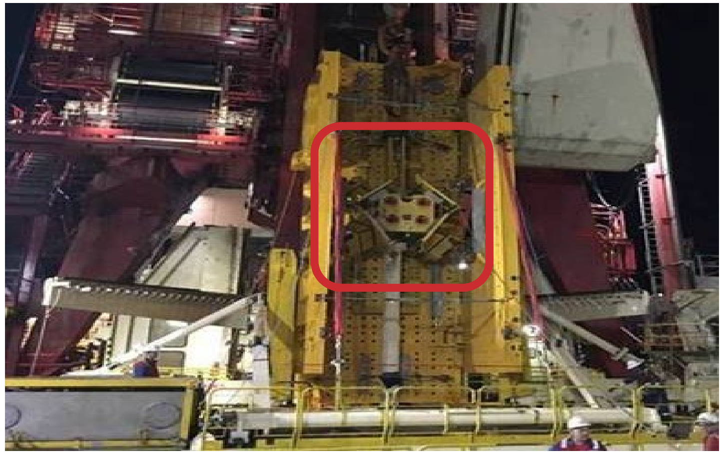
Key benefits

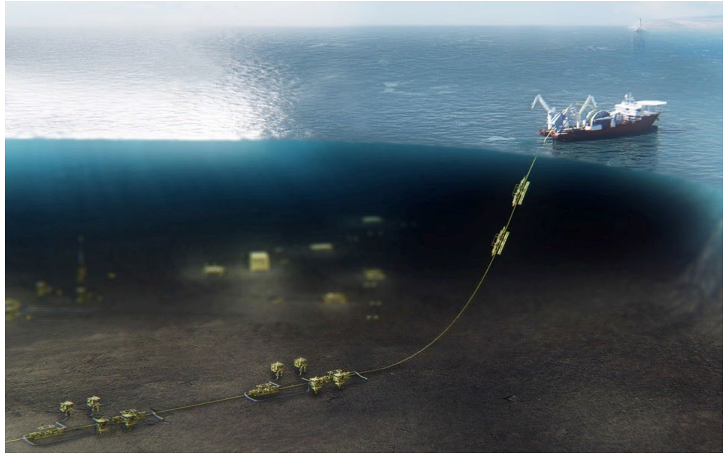
- **Reduced** material costs
- **Simplified** equipment set-up
- **Optimized** flow assurance
- **Reduced** installation phase
- **Accelerated** time to first oil

A field design incorporating Subsea 2.0™ and iEPCI™ can remove over half of the subsea structures while maintaining the same field operability

Making subsea short-cycle with Subsea 2.0™ + iEPCI™

Shell Kaikias → Subsea 2.0™ + iEPCI™ = 6 month schedule reduction | Break-even price <$30/bbl





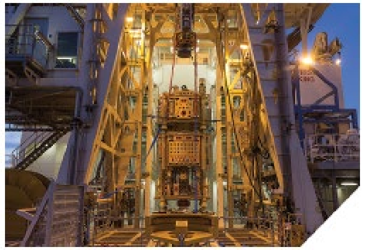
TechnipFMC is changing the subsea paradigm from a long-cycle to a short-cycle business, using Subsea 2.0™ and a truly integrated approach (iEPCI™) to field development

Unique drivers of Subsea revenue growth

Subsea Services

Installation services

Asset integrity services



Intervention services

- Diversified revenue base of approximately $1.2 billion in 2022
- Resilient, margin-accretive aftermarket services
- Service potential on industry's largest subsea installed base

Alliance partners

REPSOL OXY ConocoPhillips LLOG exploration

wintershall dea bp ENERGEAN OIL & GAS

BR PETROBRAS Hurricane HESS equinor

NEPTUNE ENERGY woodside

- Long-term, mutually beneficial relationships
- iEPCI™ alliances utilize full integrated offering
- Exclusive alliances result in direct awards

All-electric subsea production systems

Reducing infrastructure to create low carbon opportunities

- **Infrastructure and installation time reduced** with removal of hydraulic lines, simplified umbilicals and lighter assets
- Enables **full field electrification** of subsea production system, allowing for use of **renewable power alternatives**
- Ideal solution for **long offsets from host facility**, **Subsea-to-Beach** and **unmanned fields**
- Allows for more robust **digital capabilities** while significantly increasing access to field-specific data

Incremental tie-back opportunity may exceed $8 billion through 2030[1]

10% Reduction in capital expenditures

4X+ Increase in subsea tie-back reach

100% Fields unmanned through robotics, digital technologies

1. Source: Rystad Energy; McKinsey & Company Energy Insights: Global Energy Perspective, January 2020; TechnipFMC internal analysis

Surface Technologies competitive strengths

Leading market positions in several niche product offerings

Delivering technology that extends asset life, improves returns

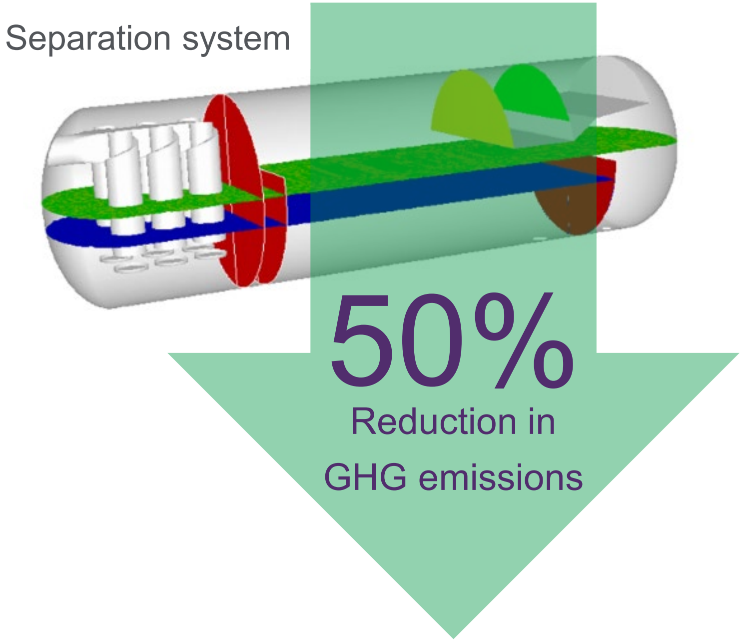
Integrated offering delivers up to $1m in savings per well, creates unique growth platform

Wellhead	Flowline	Stimulation, Flowback and Pumps		
Drilling	**Completion**		**Production**	**Midstream**

iProduction™

Replicating the Subsea playbook to transform onshore production

- **Proprietary technology** and **integrated ecosystem** streamlines operations; **reduces** footprint, GHG emissions, capital costs, time to first oil
- Integrated offering operates under a single **digital interface**, including our digital twin technology; each site is **monitored** and **controlled remotely**
- TechnipFMC is the only provider to **fully integrate the delivery process** with people, products and services
- Reflects ongoing **strategic shift** from **discrete product sales to fully integrated services** for the global onshore production market



Global opportunity set may exceed $7 billion through 2030[1]

>50% Reduction in GHG emissions

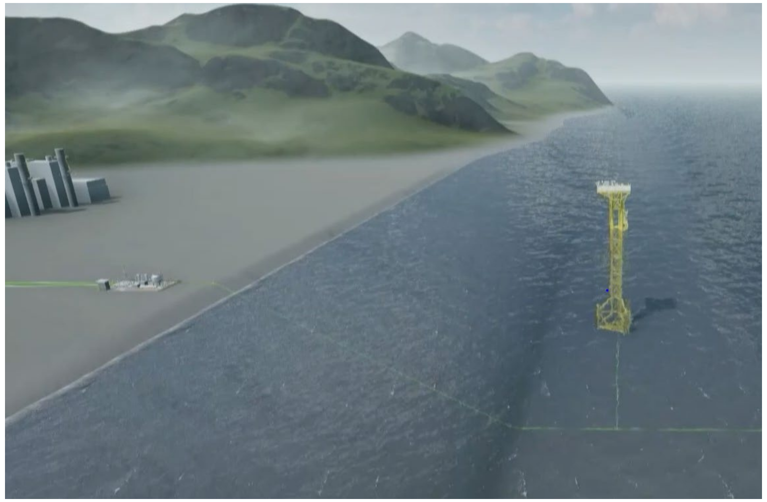
>30% Acceleration in time to first oil

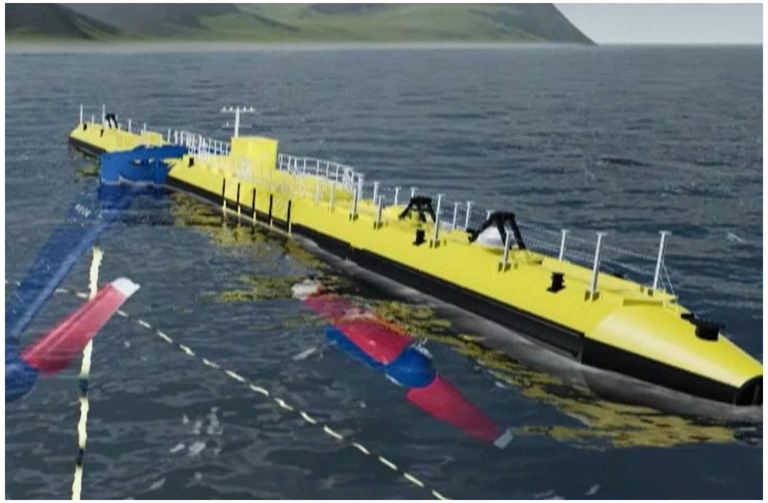
>25% Reduction in operator capital expenditures

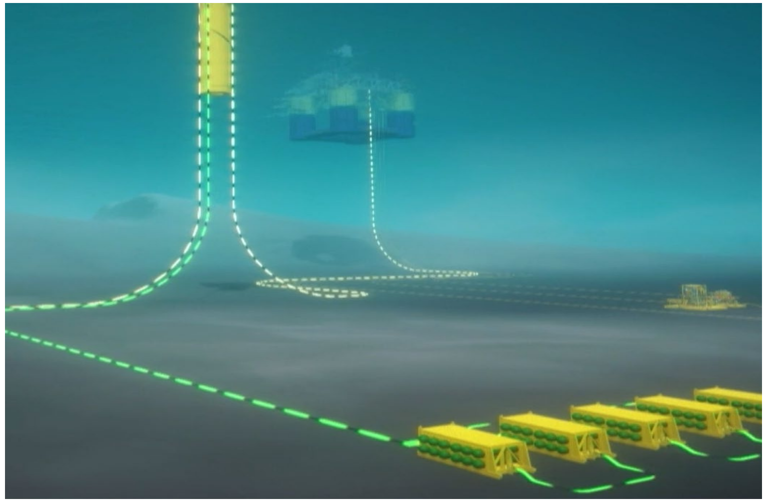
1. Source: Rystad Energy; McKinsey & Company Energy Insights; TechnipFMC internal analysis

New Energy

Core competencies drive our three strategic pillars

Greenhouse gas removal	Offshore floating renewables	Hydrogen
		






integrated Offshore Novel Energies – iONE™

Market approach driven by **3 main pillars**; our role in the long-term path to net zero will be as offshore 'Energy Architect'

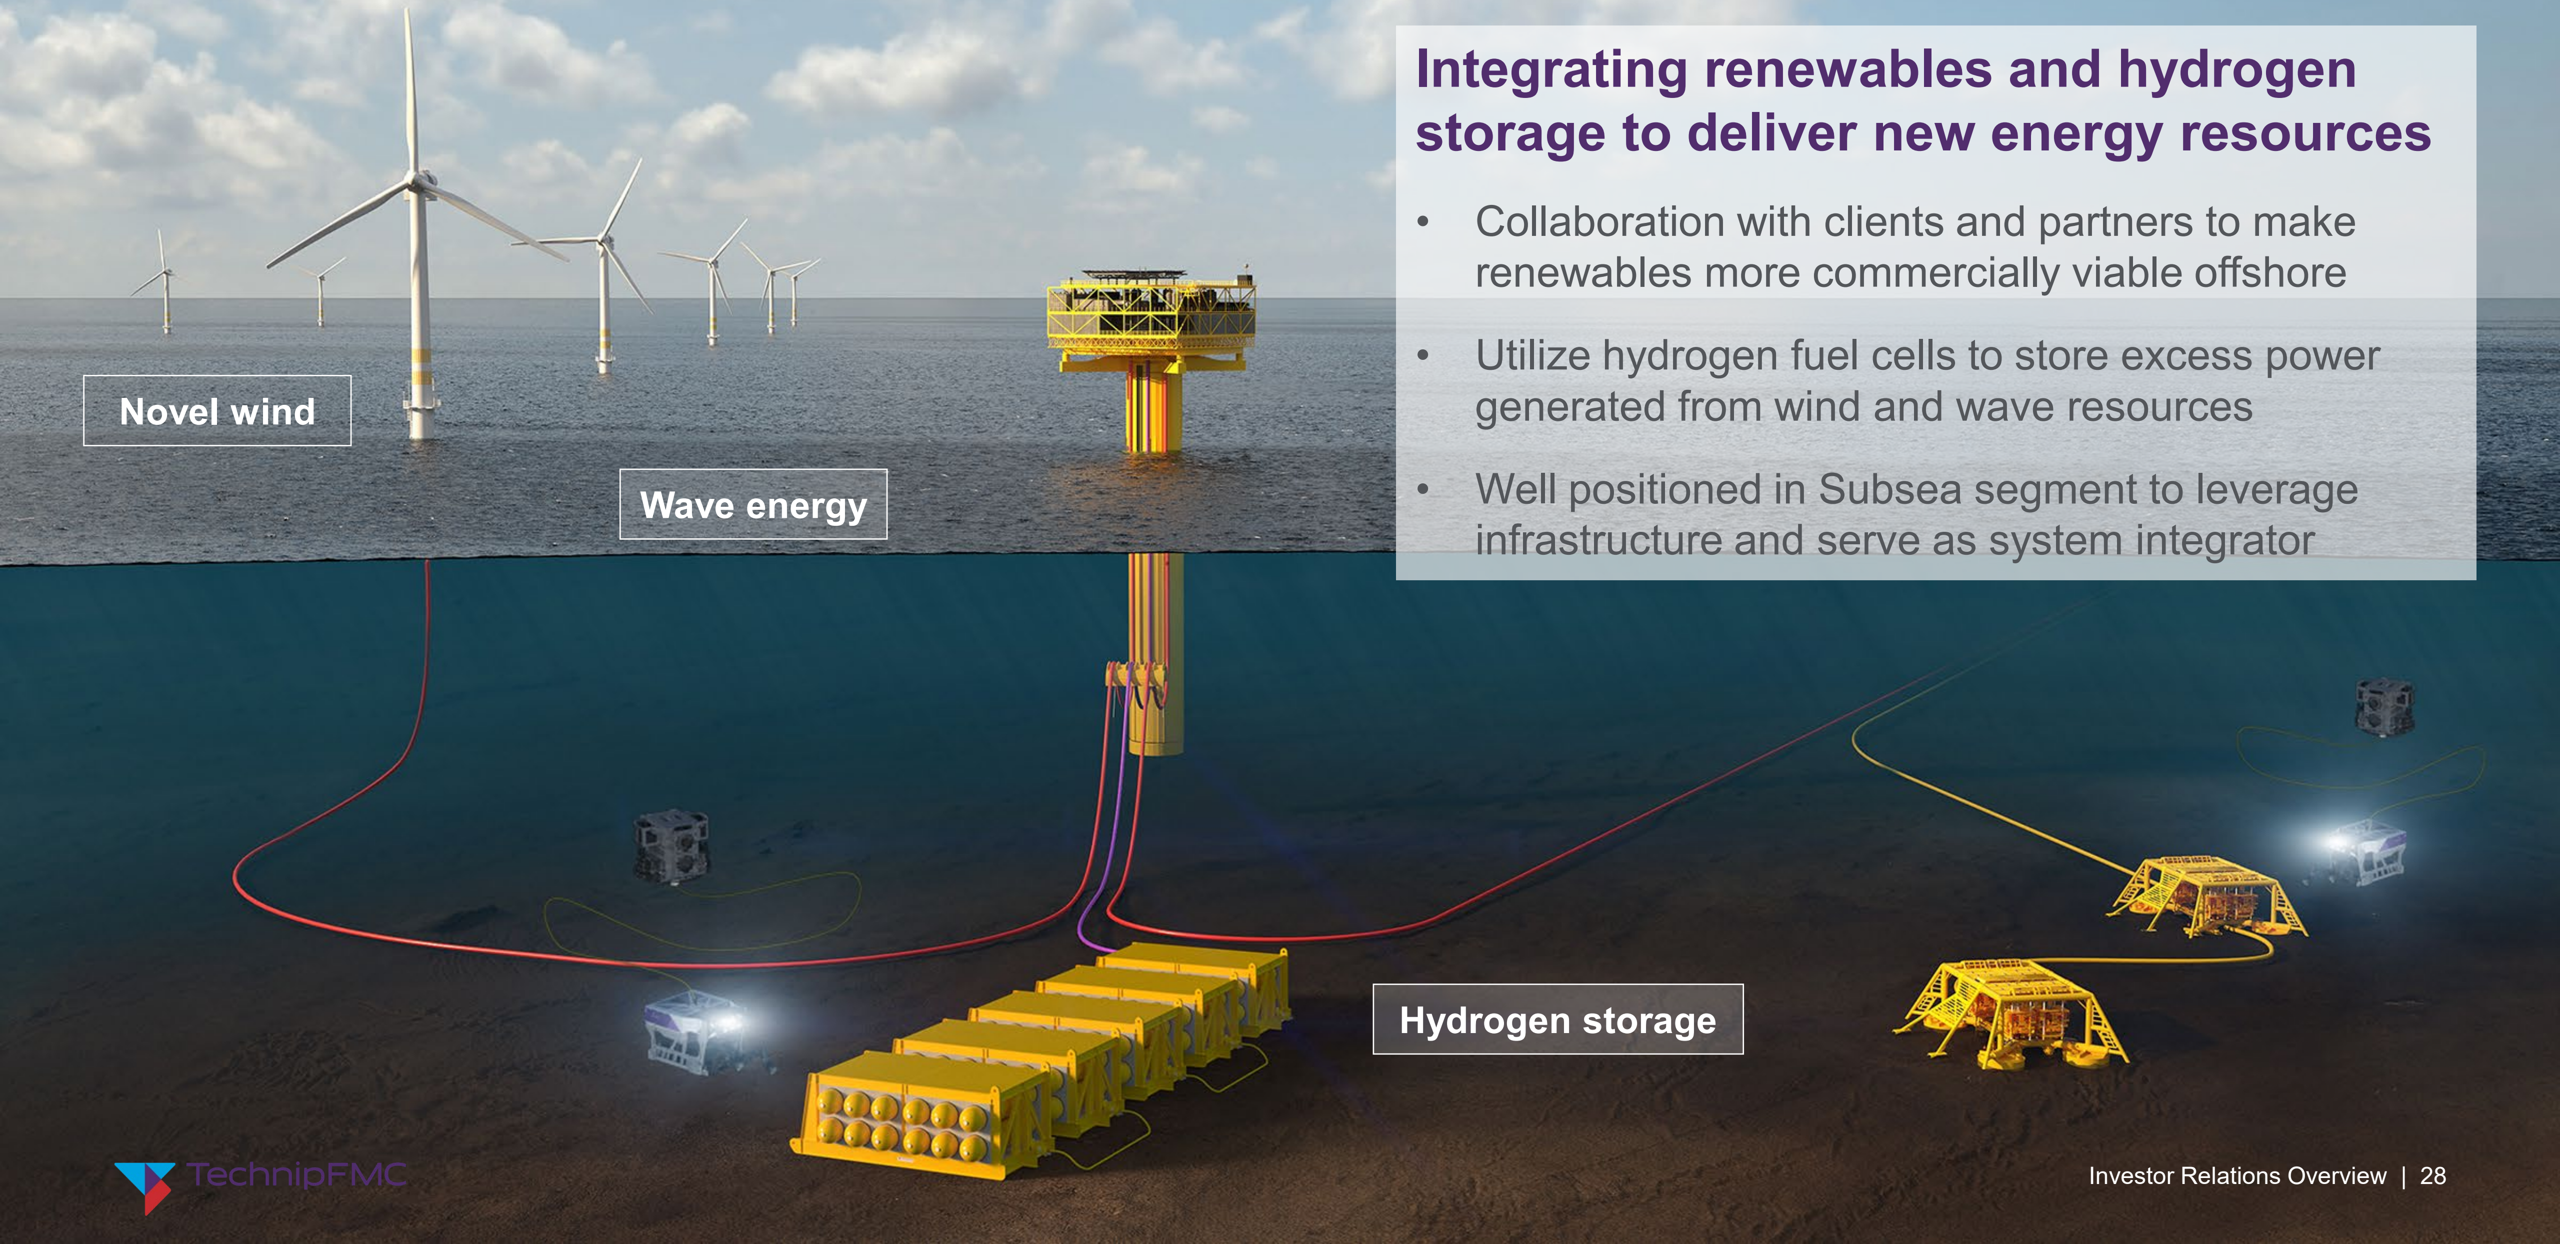
- **Greenhouse gas removal** – carbon transportation and storage
- **Offshore floating renewables** – floating wind, wave and tidal technologies
- **Hydrogen** – Deep Purple offering and digital solutions for better efficiency and energy management

Approaching opportunities in renewable energies with a new execution model, **integrated Offshore Novel Energies – iONE™**

Deep Purple™ – Redefining subsea energy

Integrating renewables and hydrogen storage to deliver new energy resources

- Collaboration with clients and partners to make renewables more commercially viable offshore
- Utilize hydrogen fuel cells to store excess power generated from wind and wave resources
- Well positioned in Subsea segment to leverage infrastructure and serve as system integrator



Appendix

Glossary

Term	Definition
CAGR	Compound Annual Growth Rate
CCS	Carbon Capture and Storage
ESG	Environmental, Social and Governance
FID	Final Investment Decision
F/X	Foreign Exchange
GHG	Greenhouse Gas Emissions
GOM	Gulf of Mexico
HP/HT	High Pressure / High Temperature
HSE	Health, Safety and Environment
iEPCI™	Integrated Engineering, Procurement, Construction and Installation
iFEED™	Integrated Front End Engineering and Design
iLOF™	Integrated Life of Field
LNG	Liquefied Natural Gas
MMb/d	Million Barrels per Day
Mtpa	Million Metric Tonnes per Annum
NAM	North America
RCF	Revolving Credit Facility
ROIC	Return on Invested Capital
ROV	Remotely Operated Vehicles
ROW	Rest of World

Q4 2022 Supporting financial data

Exhibit 6

TECHNIPFMC PLC AND CONSOLIDATED SUBSIDIARIES
RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES
(In millions, unaudited)
Charges and Credits

In addition to financial results determined in accordance with U.S. generally accepted accounting principles (GAAP), the fourth quarter 2022 Earnings Presentation also includes non-GAAP financial measures (as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended) and describes performance on a sequential and year-over-year basis against the comparable prior year periods. Income (loss) from continuing operations attributable to TechnipFMC plc, excluding charges and credits, as well as measures derived from it (including diluted income (loss) per share from continuing operations attributable to TechnipFMC plc, excluding charges and credits); Income before net interest expense and taxes, excluding charges and credits (Adjusted Operating profit); Depreciation and amortization, excluding charges and credits; Earnings before net interest expense, income taxes, depreciation and amortization, excluding charges and credits (Adjusted EBITDA and Adjusted EBITDA, excluding foreign exchange, net); Adjusted EBITDA margin; Adjusted EBITDA margin, excluding foreign exchange, net; Corporate expense, excluding charges and credits; Foreign exchange, net and other, excluding charges and credits; and net debt, or cash are non-GAAP financial measures. Management believes that the exclusion of charges and credits from these financial measures enables investors and management to more effectively evaluate TechnipFMC's operations and consolidated results of operations period-over-period, and to identify operating trends that could otherwise be masked or misleading to both investors and management by the excluded items. These measures are also used by management as performance measures in determining certain incentive compensation. The foregoing non-GAAP financial measures should be considered by investors in addition to, not as a substitute for or superior to, other measures of financial performance prepared in accordance with GAAP. The following is a reconciliation of the most comparable financial measures under GAAP to the non-GAAP financial measures.

	Three Months Ended December 31, 2022						
	Loss from continuing operations attributable to TechnipFMC plc	**Income attributable to non-controlling interests from continuing operations**	**Provision for income taxes**	**Net interest expense and loss on early extinguishment of debt**	**Income before net interest expense and income taxes (Operating profit)**	**Depreciation and amortization**	**Earnings before net interest expense, income taxes, depreciation and amortization (EBITDA)**

TechnipFMC

TECHNIPFMC PLC AND CONSOLIDATED SUBSIDIARIES
RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES
(In millions, unaudited)

	December 31, 2022	September 30, 2022	December 31, 2021
Cash and cash equivalents	$ 1,057.1	$ 711.5	$ 1,327.4
Short-term debt and current portion of long-term debt	(367.3)	(231.9)	(277.6)
Long-term debt, less current portion	(999.3)	(1,134.9)	(1,727.3)
Net debt	$ (309.5)	$ (655.3)	$ (677.5)

Net (debt) cash, is a non-GAAP financial measure reflecting cash and cash equivalents, net of debt. Management uses this non-GAAP financial measure to evaluate our capital structure and financial leverage. We believe net debt, or net cash, is a meaningful financial measure that may assist investors in understanding our financial condition and recognizing underlying trends in our capital structure. Net (debt) cash should not be considered an alternative to, or more meaningful than, cash and cash equivalents as determined in accordance with U.S. GAAP or as an indicator of our operating performance or liquidity.

Exhibit 11

TECHNIPFMC PLC AND CONSOLIDATED SUBSIDIARIES
RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES
(In millions, unaudited)

	Three Months Ended December 31,	Year Ended December 31,	
	2022	2022	2021
Cash provided by operating activities from continuing operations	$ 566.4	352.1	715.0
Capital expenditures	(63.6)	(157.9)	(191.7)
Free cash flow from continuing operations	$ 502.8	$ 194.2	$ 523.3

Free cash flow (deficit) from continuing operations, is a non-GAAP financial measure and is defined as cash provided by operating activities less capital expenditures. Management uses this non-GAAP financial measure to evaluate our financial condition. We believe from continuing operations, free cash flow (deficit) from continuing operations is a meaningful financial measure that may assist investors in understanding our financial condition and results of operations.
