

Technip awarded multi-disciplinary engineering services contract by Woodside

May 11, 2016

Technip has been awarded an engineering services contract by Woodside to provide multi-disciplinary engineering services as part of an engineering panel. This contract covers all Woodside operated onshore, offshore and subsea producing assets.

Under the agreement, Technip and Genesis⁽¹⁾ may provide a comprehensive suite of engineering services including:

- concept select and feasibility studies,
- front-end engineering and design (FEED),
- detailed engineering,
- production engineering support,
- engineering assessment and review, as well as Genesis' specialist technical services (e.g. flow assurance, technical safety).

Arnaud Pieton, President of Technip in Asia Pacific, commented: *"We are delighted to continue our relationship and journey with Woodside in the pursuit of innovative engineering solutions for their existing and extensive onshore LNG facilities, offshore oil & gas assets and subsea infrastructures."*

The contract enables Woodside to leverage our combined resource pool in our operating center in Perth, Australia, as well as support from our global team.

This agreement is also part of Technip's strategy to be even closer to its clients and build long-lasting relationships.

⁽¹⁾ Group's wholly owned subsidiary Genesis
